HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H. B. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw and is therefore easily and speedily separated It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense We have come to the [illegible] to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent heretofore considered the best in use

A bill to legalize the apportionment for the Legislative Assembly of Arizona passed

Morton suggested the report of the Judiciary Committee against the admission of Ames as Senator from Mississippi, be taken up to-morrow as a special order

Conkling reminded him that this was unusual a high privilege and would override all special orders and everything else

Wilson offered an amendment to the proposition which he intends to offer as an amendment to the Georgia bill declaring that in consequence of the illegal disorganization and revolutionary proceedings of the Georgia Legislature its term of service shall date from the 26th of January 1870, and continue until its successor is elected on Nov 7th 1870

The Senate resumed the consideration of the Georgia bill, Pomeroy argued that all the Governors of Georgia thus far, had been provisional that there was nothing to show when Governor Bullock's term expires, because there was nothing to show when it began

The Herald on Railroads

We are not disposed to make hard con li ons with the *Herald*, yet we ought in jus e to intelligent readers to insist that its oring disquisitions on the policy of aiding ilroads should have some little consistency ith each other to entitle them to our atten on. So far, they have been so utterly con adictory, so devoid of anything which ould indicate that any fixed principles or settled ideas in regard to the policy of inter al improvements were had in view in the reparation of them, that it must necessarily e an unprofitable job to follow their tortu us course The *Herald* takes now one po ition, and now a directly opposite one, it iffers with itself as to facts as much as to deas of policy, and shifts and changes just s often as party emergencies appear to re quire. We are told once more that the Astoria bill is "a fraud on its face," yet no paper in the State approved this measure so enthusiastically as did the *Herald* for a time Again, it has demanded and continues to demand grants of land to aid in the construction of railroads, yet it also denounces the policy of such grants, and says if they are to continue there soon will be no land left for homes for the people

We have said that there can be little profit in following the crooked course of the *Herald* on this subject. Yet as that paper is the organ of its party we are required to take its utterances as the best the party has to offer Therefore we quote briefly from it and append some comments of our own In one place it says:

> It is to prevent so direful a consummation (a general rise in the price of lands in all parts of the country) that the Democrats in the U S Senate are now struggling They want Government to lend aid to railroads in some way other than lavishing upon them grants of land amounting in area to more than some powerful European kingdoms. The move is made on the part of Democrats in the interest of the people whose hopes for independence are based on cheap lands.
>
> If the present policy of vesting absolute title to the public domain in soulless corporations continues, there will soon come a time when no more homesteads can be had.

As to that "direful consummation," it is our opinion that a worse calamity might befall the country in general and our own State in particular than a rise in the values of lands, and we doubt not that [illegible] of Oregon are much of the same opinion. Another "direful consummation" of the same sort would be a rise in the price of wheat, which our people would accept with resignation if it should fall upon them.

We now bring the *Herald* to a point which it will please duly consider. It talks against what it broadly calls the policy of "lavishing grants of land amounting in area to more than some powerful European kingdoms." This is "writ large" in accordance with the Democratic habit of exaggeration;—but the question to be asked is, does the *Herald* hold that the Astoria bill, the one which it has under consideration, grants too much land? That paper in substance says it does. And that is the whole drift of its argument Now another question. If the Astoria bill grants too much land does not the bill which Smith has proposed and which the *Herald* has approved, grant too much also? Each of the bills grants twenty sections per mile; how is it then that, considered in the view that the public lands ought to be reserved for the people and not given to corporations, the bill proposed by Smith is wholly good and that proposed by Williams wholly bad? And as the Democrats in the Senate opposed the one, is it not certain that for the very same reasons they will oppose the other? Their position on this subject is that of actual opposition to land grants for railways, and no measure can be proposed to aid railways in Oregon by grants of land which the record they have made will not compel them to combat. Their opposition to the Portland and Astoria grant was put on the ground that the lands ought not to go into the hands of corporations to be enhanced in price and withheld from the people. But this argument was wholly untenable, for the bill itself provides that the lands shall be sold to actual settlers at the low price of two and a-half dollars per acre [illegible]

In another article the *Herald* says:

> It is not against subsidies and money aids that the Democrats have raised their voices, but against the prodigal and corrupt granting to soulless corporations of vast empires of the public domain and countless millions of the public money.

Every intelligent person knows that it is no longer any use to talk about bond subsidies and money aids for railroads. No more aids of this sort will be granted There is no other practical way, then, to aid railroads than by grants of land. By the above extract the same inquiry is also suggested which we have once before propounded. This Democratic opposition to land grants, let it still be remembered, was evoked in the debate on the Portland, Astoria and West Side bill The *Herald* approves the course taken by Democratic Senators, on the ground that "vast empires of the public domain" should not be granted to "soulless corporations." Again we ask, does it hold that this grant is more than Oregon ought to have? The whole drift of its argument is to that conclusion Then why does it approve Smith's bill which proposes to grant to a "soulless corporation" an equal amount of land per mile? The Democratic argument in the Senate, which the *Herald* approves, would kill Smith's bill as effectually as it would kill the one introduced by Williams And it would kill every other bill designed for the benefit of Oregon

To sum up briefly, the *Herald* has taken these positions, viz. First, that the Astoria, Portland and west side bill was a most beneficial measure. Second, that the said bill was a "transparent humbug" and a "fraud on its face." Third, that Smith's bill was a good one, and that the west side company and other corporations ought to have large land grants to build railroads. Fourth, that land grants to "soulless corporations" to build railroads have the effect to rob the people of homes and the policy of making such grants should be abandoned. We wait now for the next dodge

Republican Primaries.

Republican voters will observe in the local column of this morning's paper a statement of the places secured for holding the primaries this afternoon It was was found impracticable to hold them at the usual places of voting in some of the city precincts The primaries are held according to the old precinct lines The basis of representation in the County Convention is one delegate for every twenty votes cast for Mr Logan, and one additional for a fraction of ten or upwards. Republicans will perceive the importance of coming out and taking such steps as will secure a good and satisfactory delegation for the State Convention

Eastern Oregon in the Democratic Convention

Eastern Oregon sends down to the Democratic Convention a candidate for Congress in the person of James H Slater That portion of the State also sends candidates for the nomination for Secretary of State in the persons of Ferguson Virtue and McComas For candidates for Judge of the Fifth District there are Humason McArthur and Miller The contest for this nomination seems to be mainly between Humason and McArthur, as Miller is more poet than politician, and with that sensitive shyness peculiar to his class declines to urge his claims It must be a little chilling to him to reflect that while he was editing the only Democratic paper in the State at great pecuniary sacrifice and risk, one of his competitors was in the Union League and the other was in his teens Republics are proverbially ungrateful and it is questionable if the same may not be said of the Democratic party Laswell of Grant, and Pierce of Baker, are candidates for Prosecuting Attorney for that District If Slater is nominated for Congress which now seems probable, the three candidates from that section for Secretary of State will have to yield for some man down this way

Will They Do It?

The Democrats of Union county in Convention assembled send greeting to their brethren throughout the State a set of resolutions among which we find the following

> That as the people of the United States ought never to submit to be saddled with a permanent public debt, to be handed down from one generation to another to eat out their substance and sink them into slavery, therefore we are opposed to the funding of the so called national debt, except upon an equitable adjustment between the bondholder and the people, based upon the amount of coin origially paid, and the amount received and the immunities enjoyed by the holders thereof since their issue

Now let us see if the Democratic State Convention will gratify the party by putting into the platform a resolution embodying these ideas. There is a general demand for it and nothing less will be satisfactory to the party.

Since the old Democratic war-horse of Yamhill Andy Shuck, was turned out to grass, W. T. Newby has succeeded to war-horse honors in Yamhill. On Saturday Newby came down here it is to be supposed for the purpose of trying to raise some money to feed "imports" in that county. These "imports" are known to be very numerous, and are reported to be so ravenous as to excite alarm among their keepers. On his arrival Newby went to the office of the Democratic organ and dictated a fine piece of romance relative to the doings of "Holladay, Williams & Co" in Yamhill It appears that a man was up there last week hiring men for the railroad, and Newby attempts to make a great sensation out of it. All this is clearly for the purpose of getting more money out of the factory at Salem. As for the highly suspicious fact that Mr. Holladay is hiring men for work on his railroad, it is well known that he is and has been hiring men from several counties, and that without reference to their politics. Those Democrats who were imported into Clackamas two weeks since came back here and were employed at once for railroad work. Mr Newby is evidently trying to get up a sensation in order to make the Democratic purse-holders come out with more money for his county.

That Transaction in Clackamas

As the Oregon City *Enterprise* has the hardihood to deny that its party imported a large gang of men into Clackamas county for election purposes, we give it the following affidavits to ponder on

I, George Wilson, being first duly sworn, on my oath say, that I was in Portland on Friday, March 4th, 1870. I there saw some acquaintances on board the Oregon City boat about to leave for Oregon City. I asked them where they were going? They replied they were going to Oregon City, but did *not know* what they were going to do until they reached that place. One of their number, James Levy, asked me to come with them, that it would cost me nothing, my fare would be paid, everything would be paid, and that my fare would be paid back to Portland if things did not suit me. I then went on board the boat and went up to Oregon City. One man, named Frank Burns, paid our fare on the boat, and when we arrived in Oregon City brought my*self and others to the Cliff House* and *told us* to register our names. We remained at the Cliff House, the said Frank Burns paying our board. On Sunday afternoon the said Burns asked us to go up on the bluff back of the town We went up, and assembled together in the woods on the bluff. About one-half of those who came up on the boat were there. After we had assembled one Walter Moss, of Oregon City, said "Boys, I suppose you all know what we are here for I guess all the boys know what they are here for I want you either to go to work on a farm at forty dollars per month or to chop wood at one dollar and fifty cents per cord, and to remain in this county until the 6th day of June If you go to work on a farm the farmer will pay you $20 per month and I will pay you the other $20, and if the farmer fails to pay you I will be responsible for the amount, and you will receive your pay on the day you vote. Of course you are all Democrats, but you must pretend to be Black Republicans, and if any one questions you, you must tell them that you belong to the Black Republican party I am now out about $200 on this job It will not do for you to idle about the town, for you might be taken up on suspicion" The said Walter S Moss then produced $40 in coin and gave it to Frank Burns saying "This is for to-night, is it correct?" Burns said, "Yes, but you did not pay me for the first night" Moss replied, "That is so, I forgot it, I will settle it to night" We then began to disperse and Moss said, "You may stay around for a day or so and we will then find work for you" We then came down town and remained until Monday at noon, when I came to dinner I was told it was not paid for and I could not have it I then went to Burns and asked him what was the matter He said, "The boys are all getting drunk, and it won't do, but I'll see you through to night, and you then can go down on the railroad to Dodge, on section 2 and he will give you work, tell him I sent you and it will be all right" I did not go down on the railroad. My board during my stay was paid by Burns, and I now say on oath that the foregoing statement is true so help me God (Signed) GEORGE WILSON

Polk County Democratic Convention.

SALEM, March 20 —The Polk County Democratic Convention met yesterday and elected the following delegates to the State Convention Ben Hayden, B F Burch, H N V Holmes, J Stanton Wm Lewis, J W Smith, J J Demysey, R J Grant and A D Babcock and nominated the following county ticket Representatives, R J Grant J Comegys Ben. Hayden, Sheriff, Sam Burch County Clerk, Holmes County Judge, John Myers.

A Fixed Fact.

The Sacramento *Reporter* of February 26th, the leading organ of the Democratic party in California, says the Fifteenth Amendment is a fixed fact, and accepts the situation in the most humble and conciliatory manner, notwithstanding former threats and loud curses upon the "nigger," who our readers will observe in the following extract, are greeted with the more polite term of "colored men"

> "Well, our colored fellow citizens are to vote We might as well put that in our pipes and smoke it, as the vulgar saying goes They need give us no thanks for the privilege, either For while we have no prejudice against the race, that we can discover, and would accord to negroes, as to all other men, 'equal and exact justice' we still believe that there are good and sufficient reasons why men should be debarred from the suffrage on account of race or color In short we believe that black men may be justly excluded from the suffrage in the United States, for the same reason that white men are justly excluded in Liberia However, that is not here nor there The colored men are going to vote, and we may say to them frankly that practically, and so far as California is concerned, we do not care The number of colored people in this State is small, and as a class they are respectable and intelligent, and we trust that in the exercise of their new privilege they will do themselves no discredit If they are governed entirely by feeling and prejudice they will vote the Republican ticket If they are governed by reason they will first consider what is the most for their interest and for the interest of the State and the nation in whose government they will soon, for the first time, have a voice

The *Reporter* is magnanimous enough to acknowledge that the colored men as a class, are respectable and intelligent, but only found out this fact since the adoption of the Fifteenth Amendment, says the *Yreka Journal*

THE CHANGE THAT HAS COME OVER THEM.— The subjoined we cut from the San Jose *Mercury* of the 5th inst

> "Thursday evening, while the vote of the primary election was being canvassed, quite a large number of men were collected in the court of the City Hall among them a gentleman who is said to be an aspirant for nomination for a certain office before the Democratic primary At the same time the colored people were having a meeting in the hall above, and the would be candidate remarked to one of the successful ones of the Republican primary, that 'our colored citizens were having a good time up stairs.' 'Who?' asked the lucky one 'Our colored citizens,' replied the Democrat 'O yes,' said the other, 'I understand you now you mean those persons who were niggers three weeks ago'"

SERMON AT ORO FINO THEATER.—Mr. Eliot preached the last of the series of six sermons yesterday evening. Referring briefly to the title of his address, he said that he had intended to speak of the claims of christianity as a revelation upon the goodwill of men, but found it involved too much for one sermon. He therefore simply asked fair play for the Christian religion, as the great practical system of helpfulness or redemption to those who were burdened with sin. He spoke of the great class of the "unchurched," and said he was addressing those of this class who were in earnest as doubters; not those who were indifferent, shallow, or lax in morals. A belief in God and duty presupposed, the way was open for a man to be persuaded that the greatest help that is afforded any one, to make him what he should be, is in the gospel and life-giving power of Jesus Christ. Christianity and Christians as a class were meanly judged by worldly men. The bad and shallow specimens were taken and called good samples of the whole. This unfairness was compared to one's sending bad wheat off to the East and showing it as a sample of Oregon's average crop. Reference was made to the differences between the churches, to indicate that they were continually lessening with the advance in knowledge and spiritual life. The stability of our country was cited as a result of Christianity and its implanted principles, and the speaker closed with a comparison of this mighty moral and spiritual force to the sunlight. There were different theories about it, but all who caught its light and heat grew. The name Christ is above all sect names. The helpfulness of Christianity was such that the world is right in turning to that hill of Calvary, the Cross and the Life which ended there, and rose from the dead, as it turns to no others in history.

THE REPUBLICAN UNION PRIMARIES.—The primary elections—for delegates to the County Convention, to be held on the 26th inst.—will be held in the several precincts of Multnomah county this afternoon, commencing at one o'clock P. M. The apportionment of delegates is based upon the vote of the precincts as they existed before the recent change in boundaries; and that there may be no confusion among voters, we give here the boundaries of each city precinct, and the places of voting in each:

North Portland Precinct embraces all that part of the city lying north of the line of Couch's Addition. The place of meeting is the school house at corner of A and Fifth streets.

[illegible] Precinct—all that part of the city [illegible] Couch's Addition and Morrison street. Place of voting, First street, between Stark and [illegible], Oro Fino Theater.

South Portland Precinct—all that part of the city lying south of Madison street. Place of voting, [illegible] of Clay and Front streets.

[illegible].—Peanuts were not so cheap a luxury [illegible] mentioned in the Nevada *Gazette*, [illegible] to people hereabouts, who were [illegible]. The *Gazette* says: "One of our citizens, a native of the Empire State, recently had a [illegible] after some of the good old chestnuts of his native State. His brother, who resides on the old [illegible], was aware of the fondness of the [illegible] relative for this kind of fruit, and [illegible] him with an agreeable surprise, he sent [illegible] in a neat box, by express, marked 'C. O. D.' A few days ago the box arrived [illegible] our citizen, supposing that it contained [illegible] of rare value, paid the exorbitant tariff [illegible]. Judge of his consternation, when upon opening it he found eight quarts of chestnuts. They cost him about ten cents each."

Gish, Wells, Fargo & Co.'s Messenger, and five others.

GALL IN COURT.—On one occasion when *Gall* was in [illegible] serving the city in jail, he managed to "bum" an attorney to defend him. Now *Gall* has a heart to remember such things,—his course in the Police Court on Saturday shows that he has gratitude. A man named *Hickley* was under arrest for assault. *Gall* was a free man, and he volunteered to undertake the defense of *Hickley*. Whether it was owing to the ability of *Gall* or not, *Hickley* was finally discharged, and *Gall* received the credit for it. The action made them [illegible], and in their rejoicings *Gall* again got [illegible] disorderly, and went to jail. His mug will appear this morning as usual in the [illegible] box.

U. S. DISTRICT COURT, DEADY, JUDGE.—March 19, 1870. Trial jurors were discharged for the term.

John H. Egan vs. steamboat *Mary Bell*; time to answer amended libel extended to Thursday next. Doyles & Moreland for libellant, Whalley for claimant.

United States vs. Edward Mathiot; notice of motion for new trial; order that defendant have until Monday next to file motion, and motion to be heard on Thursday following. Cartwright for United States, Logan for defendant.

Adjourned until this (Monday) morning at the usual hour.

BRIEF MENTION.—Richardson sold two lots, together with improvements worth $1,000, at auction on Saturday, for $2,150. The lucky purchaser was Mr. Shattuck.

The bark *Edward James* will return to Oregon for a cargo for South America.

There are fifteen licensed hotels and boarding houses in this city. The number of licenses issued to saloons is, at this time, 58, and to places where liquor is sold by the quart, 9. Licenses are renewed every three months, hence the number seems larger than it really is.

Per *California*, for Victoria, Saturday evening, the following: J. M. Watson, Robert White, C. B. Mann, Mrs. Byron Barlow, Mrs. Cornwell, Mrs. Peters and child, Col. Gibson, D. E. Hodges, Col. B. S. Pardee, Capt. R. J. Eskridge, N. G. Denny, Mrs. Jordan, A. Sunderland, J. A. Falkerson, Samuel Denny and wife, Josephine G. Denny, Sol. T. Denny, Mrs. Martha E. Butler and two children, E. T. Warren, wife and three children, J. H. M. Swafford, M. Burns, Oscar Sayles, S. Whittmore.

EXTENDING THEIR BUSINESS.—Messrs. Stitzel & Upton have opened a branch office in the town of Albany, Oregon, for the sale of real estate in that part of the State. Mr. John C. Mendenhall will act as their agent there.

BURNING FLUIDS.—Many towns in the State have a regularly appointed inspector of illuminating oils and heavy penalties follow the introduction of such fluids as will not stand the proper tests. We commend the example as worthy of imitation by our own city authorities. We are informed by those who ought to know that very frequently illuminating fluids sold in this market are actually unsafe, and would suggest that measures be taken for our protection.

NEW BUILDINGS.—We are informed that four brick buildings of two stories each, will be erected this spring on the lots immediately north of the structures occupied by Messrs. Allen & Lewis on North Front street.

IRON ON THE WAY.—Two vessels ladden with iron for the east side railroad, are now some considerable time out from a Welsh port *en route* to Portland, Oregon direct.

OREGON

Only twenty nine votes were cast at the recent municipal election at La Grande.

The Linn County Republican Convention will be held next Thursday, at Albany.

Mines have been found on Salmon creek, in Baker county, said to be richer than any ever before worked there.

The Scio people are proposing to do half the work of getting a good road and mail route from that place to Albany.

Miss Laura Fate of Albany has been afflicted for a long time with inflammatory rheumatism, which, it is feared, may yet render her blind.

The town of Jacksonville got through the last year, ending March 1st, with a balance in the Treasury of $275 currency, and $494 21 coin.

The Milwaukie delegates to the Clackamas county Republican Convention, are J. H. Lambert, Seth Lueling, Wm. Phillips, B. F. Smith, Wm. L. Worthington.

A largely attended temperance meeting was held at Oregon City last Friday evening. Speeches were made by Messrs. Magone, Todd, Garry, Pagnet, Whitlow and Warren, and a considerable number of persons signed the pledge.

The *Mountain Democrat*, La Grande, complains of bad management in the carriage of mails in Eastern Oregon. Several instances are mentioned, in which packages of newspapers have been sent to wrong places, mail sacks sent with wrong tags, etc.

The following named gentlemen are the delegates from Oregon City precinct to the Clackamas County Republican Convention: Dr. Barclay, J. M. Moore, J. G. Porter, L. D. C. Latourette, W. Broughton, J. W. Lewis, A. J. Apperson, D. D. Tompkins, Jos. Magone, Wm. Barlow, J. Milne and C. P. Church.

On Saturday, the Republican Convention of Benton county was held, and the following nominations were made: State Senator, Witham, Representatives, Kelly and Dunn. Messrs. Shipley, Odeneal, Johnson, Lee, Witham, Lilley, Brownson, Newton, Elliot and Wyatt, were elected delegates to the State Convention.

The La Grande *Democrat* says: William Cochran, the man wounded in the shooting affray at the Cove, week before last, died Wednesday morning, at half past six o'clock. Immediately after the intelligence of Cochran's death was received by the sheriff, the prisoner was more closely confined, and a Gardner shackle placed upon his ankle.

Mr. John Minto announces through the *Farmer* that his editorial connection with that paper has ceased, and that he will be succeeded by Mr. A. J. Dufur. If the latter gentleman shall be as successful as the retiring editor in making a good readable farmers' paper, the stockholders in it need have no fears about it as an investment.

A Brownsville correspondent of the *Register* says: Prospects of the Woolen Mills' resuming operation are more flattering than they have been for some time past. A transcript of the titles, deeds, etc., have been taken and placed in the hands of one of the partners, who has gone to the Atlantic States for the purpose of selling out if possible, if not, of renting it to some company who will run it.

Salem items from the *Statesman*: On Friday, T. H. Brents made application before Judge Boise, at Chambers, for a writ of habeas corpus, to take a convict from the Penitentiary, on the ground that his offense was not specified in the judgment against him. The Judge denied the application. ...Jack Williams, guilty of larceny, in stealing a horse, was, on Saturday, sentenced to five years imprisonment in the Penitentiary.

Rules of Practice in the Circuit Court of the Fourth Judicial District.

At a meeting of the members of the bar on Saturday morning, at the Court House, the following Rules of Practice were adopted.

1. All cases in which the answer is filed, or the time for answering expires on or before the first day of the term, will be for trial at such time, and be placed on a list to be known as the trial calendar, otherwise an issue of fact will not be tried at such term except by consent of parties.

2. A case that is for trial upon an issue of fact may, on the first day of the term, be placed at the foot of the trial calendar on the written consent of the parties, or for good cause shown by affidavit.

3. Actions that are at issue upon the facts at the time of calling the calendar on the first day of the term will be taken up and tried in the order in which they stand upon the calendar, unless otherwise specially ordered.

4. The time for the trial of criminal cases will be fixed by special order at each term.

5. After Law cases are disposed of, issues of fact joined in Equity cases will be heard in the same order provided for the trial of actions.

6. Issues of fact joined after the calling of the calendar in the cases provided for in Rule 1 will, on motion of either party, be placed at the foot of the trial calendar, and will be for trial in the order in which such motions are made.

7. A motion for continuance, if the case is at issue on a question of fact, must be filed on the first day of the term, or as soon thereafter as the party moving has knowledge or information of the facts upon which the motion is to be predicated.

8. In all actions and suits wherein a defendant has appeared, the attorney, whether for the plaintiff or defendant, upon filing any pleading, or any motion in relation to a pleading, shall within the time required by law for filing such pleading or motion serve a copy thereof on the attorney of the adverse party, if such attorney of the adverse party has an office at the county seat of the county where the action is pending, and if such attorney has no office at the county seat, then such copy shall be left at the office of the County Clerk, and if such service is omitted and default is taken or claimed, the default will be set aside upon a showing of want of knowledge of the filing of such pleading or motion.

9. Any demurrer, motion or other question of law, not involving a trial of the cause on its merits, may be brought on for hearing by entering in the motion book the title of the cause, the names of the attorneys, the nature of the question involved and the date of the entry—either party may make the entry.

10. Each Saturday during the term will be set apart for hearing demurrers, motions and such questions of law, unless otherwise specially ordered. Days thus set apart are known in these Rules as "motion days." Other days besides Saturdays will be thus set apart by special order, and made motion days if the business of the term require it. The first day of each term will be a motion day, but not to the exclusion of other business.

11. To entitle a question to be heard on any motion day except the first day of the term, it must be entered with the date of entry on the motion-book before noon of the day preceding such motion day. *Provided*, that motions or demurrers filed after noon of the day preceding the motion day, may on the same day be put on the motion docket by the adverse party, and shall stand on the same footing as other motions and demurrers regularly on the motion docket.

12. On motion days cases will be taken up and heard, on application of either party, in the order in which they are entered in the motion book unless otherwise for good cause, specially ordered.

13. If a case that is entered on the motion book is not taken up in its order, it may, by consent of the parties be taken up after all other cases on the motion book are disposed of, otherwise it must be again set down for hearing on any other motion day.

14. *Ex-parte* motions and motions for continuance will be heard on any day.

15. When a demurrer to a complaint is sustained and the plaintiff is allowed to amend, the case will stand continued for the term, at the option of the defendant.

16. When particular or special instructions to the jury are desired, the request must be presented in writing to the Judge, before the final address of counsel to the jury.

17. So much of the foregoing rules as relates to motion days and to the time of hearing demurrers, motions and other questions of law, will not apply at any general or special term, at which all the civil cases pending amount to less than forty.

At the opening of the court the foregoing rules ordered spread upon the records.

ARTISTS AS INVENTORS.—Fulton, who first successfully applied steam as a motive power to vessels, was previously an artist. Morse, the father of the electric telegraph was a portrait painter and a good one. He has not forgotten his first love. It was in a studio of the New York University building where he first made the wires say "Eureka." Rand invented the flexible tube for artists' colors now in use everywhere. It was first adopted in London, where he then resided. Rembrandt Peale was the first to employ gas in lighting cities. Philadelphia knew him well as an eminent artist. Daguerre was an obscure artist when he succeeded by self sacrifice and indomitable perseverance in compelling the sun to join his chemicals with such wonderful results. Alvan Clark, who for many years in Boston painted portraits, has obtained transatlantic honors and reputation by improvements in the telescope. America has the honor of being the country of all those eminent men but one.

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany, and the West Side Company will very probably build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fishel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits and always have on hand a large stock of the same which are offered at lowest figures.

Harness, saddle, boot and shoe makers, tailors and others should examine the latest and best shuttle machine, the GROVER & BAKER. Wm. Currier & Co., Agents.

Irritable Invalids.

Indigestion not only affects the physical health but the dispositions and tempers of its victims. The dyspeptic becomes, too, in a measure demoralized by his sufferings. He is subject to fits of irritation, sullenness or despair, as the case may be. A preternatural sensitiveness which he cannot control, leads him to misconstrue the words and acts of those around him, and his intercourse even with those nearest and dearest to him is not unfrequently marked by exhibitions of testiness foreign to his real nature. These are the mental phenomena of the disease, for which the invalid cannot be justly held responsible, but they occasion much household discomfort. It is to the interest of the home circle, it is essential to family harmony as well as to the rescue of the principal sufferer from a state not far removed from intellectual insanity, that these symptoms of mental disturbance be promptly removed. This can only be done by removing their physical cause, a derangement of the functions of the stomach and its allied viscera, the liver and the bowels. Upon these three important organs Hostetter's Stomach Bitters act simultaneously producing a thorough and salutary change in their condition. The vegetable ingredients of which the preparation is composed are of a renovating, regulating and alterative character and the stimulant which lends activity to their remedial virtues is the purest and best that can be extracted from the most wholesome of all cereals, viz: sound rye. No dyspeptic can take this genial restorative for a single week without experiencing a notable improvement in his general health. Not only will his bodily sufferings abate from day to day, but his mind will recover from its restlessness and irritability, and this happy change will manifest itself in his demeanor and to all around him.

STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

THE NUMBER OF GROCERY STORES IN PORTland is about sixty, with an average of three men to each, and at least twenty of them run delivery wagons, making at [illegible], including the [illegible], freight men and twenty teams, constantly employed to wait upon eight thousand people. Estimate the labor per man at three dollars per day in the year, it would amount to $19,100, and the rents, keeping of horses, taxes, licenses, etc., at three dollars per day for each store, and you have $64,000 more, making a total of [illegible] annually for expenses alone. Over the Alps in Winter.

MONT CENIS TUNNEL—THE SNOW-SHEDS.

orrespondent of the Philadelphia *Press* g from Brindisi, Italy, Feb 5th, says: old beaten track has been for centuries y of Marseilles, until a new project was ived of opening a road through the Alps. ld be done by making a tunnel eight long, but this would take eight or ten In the meantime fortunes would be So the active brain of Fell hit upon the plan of dragging a train, full loaded, up eep incline of Mont Cenis and letting it safely down the other side. By this continuous line would be opened from to Brindisi, from whence several lines of nships would convey the traveler to Alex- a in seventy-six hours, making only one ered and forty eight hours from London exandria. The Fell system was carried and proved a success, at least a success in pe, which might not be such in America. was this: A middle third rail was added e track, and elevated high enough to be sed by two wheels of the engine, one on r side of the rail, the wheels, of course, ping the rail in a horizontal position. gave such additional power to the en- that it was not likely to slip and stop the n. I say not likely, for in some cases, n the snow falls in abundance, even these itional wheels slip on the track. But at best, crossing Mont Cenis is a very diffi- undertaking. You pass along charming- s far as St. Michel, through the most glo- s scenery ever opening upon delighted on—hills, mountains, Alps, sharp peaks, t rear their awful forms in majesty to kiss clouds that seem to drop into their em- ce.

But now it gets difficult, and woe to him o is economic enough to travel by second- ss, for the Mont Cenis train has but two s, holding only twelve passengers each, d the express trains will carry only first- ss passengers.

From the miserable waiting-room, at the ning of the doors, you dash out like so ny released animals, and forgetful of com- n courtesies, hurry to a place—if, happily, can get one. If not, you cannot go, even ugh you offer to stand all the way—for that ld not be according to order—but you st remain for the evening train, if by so ing you do spend the night on the Alps— aying all their grandeur—and enter Susa to end four mortal hours, until break of day, order to take the Turin train. No wonder at even well-bred Americans, at the em- rking at St. Michel, should adopt the mot- : "Go in, boys, and old Nick take the hind- st;" when such misfortunes befall every e beyond the twenty-four who may be ated.

To all, I would say, beware of second-class ckets and the rear of the charging column, it these difficulties are not the fault of the ystem as much as of the officials, who neg- ct to accommodate the traveling public. he cars, too, are comfortless; so small and o gloomy that most persons will be disap- ointed in the long-expected views to be seen when crossing the Alps. And upon the road plateau, fully a mile in length, where ou hoped to see so much, you shoot under a now-shed, like a great tunnel, and only merge again as you begin to descend. In a ear or two the great tunnel will be com- leted—perhaps the greatest work of engin- ering in the world, a tunnel of eight miles without an air-shaft. Some fear its success when finished, saying it cannot be ventilated; others, that the difference of temperature at he ends will cause such a current to pass through it that some contrivance to overcome his will have to be invented.

But it will succeed; science and art will make old earth bow to man's behest, and in time France and Italy will be united by this national band of brotherhood, and the hurrying business man can dash through this long, dark shaft, under Mont Cenis, to enter sunny Italy in a few moments, while the tour- ist can patronize the "Fell system," and climb the longer and more interesting routs over Mont Cenis. But, as we suggested, the problem has been demonstrated. By the best calculation, to go from London to Alexandria by way of Marseilles, takes 176 hours, while via Brindisi, 148 hours, saving not only 28 hours in time, but shortening the actual dis- tance 37 miles. And whereas the sea voyage by way of Marseilles is 1,687 miles, by the Brindisi route it is only 965 miles, which to sensible travelers is a conclusive argument.

Only Wise in His Own Generation.

In the year 1790 Benjamin Franklin left one thousand pounds sterling as a fund from which loans should be made, in sums not ex- ceeding sixty pounds sterling, to "married artificers under the age of twenty-five who should have served their apprenticeships in Philadelphia." These loans were to be made at the rate of five per cent. per annum, and to be secured by a bond signed by two responsi- ble citizens as securities.

Dr. Franklin calculated that at the end of one hundred years the one thousand pounds thus lent at five per cent. compound interest, would reach the sum of one hundred and thirty-one thousand pounds sterling, and therefore directed the city of Philadelphia to expend one hundred thousand pounds sterling in bringing the water of Wissahicon Creek by pipes into the town, and ordered the remain- ing thirty-one thousand pounds to be let out at compound interest for another hundred years. At the end of the second hundred years he calculated the fund would amount to four million and sixty-one thousand pounds sterling, and this sum he directed to be divid- ed between the city of Philadelphia and the State of Pennsylvania, one million sixty-one thousand pounds to the city and three mil- lion pounds to the State.

On the supposition that the original thous- and pounds sterling had been augmenting at five per cent. per annum, the fund should now reach the sum of £49,560 sterling, or $247,800, whereas the investment on Dec. 31, 1869, was only $40,167. The reasons of this great falling off are not difficult to be ascer- tained. The abatement of one per cent. in- terest was not sufficient inducement, and the conditions required of the borrower were too onerous. Hence very few "married artificers" availed themselves of the Franklin Fund, and the income was invested in worthless secu- rities.

THAT COLORED SENATOR—NO FEAR OF NEGRO RULE.—A great fuss has been made over the admission of Revels, the colored Senator from the State of Mississippi. It is unquestionably an extraordinary revolution in our political and social life to see a negro seated in the high assembly of the republic. But there need be no fear of the negroes coming in numbers to Congress or into any other important position. Occasionally an exceptional case may be seen where some negro shows uncommon talents and where the constituency is composed mostly of his race. The white man—the man of the su- perior race—will always have the ascendancy. The principle of political equality and the rights of all men to equal privileges or chances being established there will be no desire to elevate the colored man beyond the point where nature has placed him. The morbid pro-negro sentiment that grew out of the war and the abolition agitation previous- ly will die out now. It has nothing to feed upon. The negro will take the place nature has assigned him under this republic, of which nine-tenths or more are white people, and we shall see few of that race in Con- gress or occupying prominent political posi- sitions. We recommend the old pro-Southern and pro-slavery Democrats, therefore, to dry up their tears. Negroes will never be our rulers.—*N. Y. Herald.*

MRS. FREMONT UPON CORBIN.—The hard- est thing yet said by anybody against Corbin, the President's speculative brother-in-law, is credited to Mrs. Fremont, and is elicited by a report that Corbin was formerly a private sec- retary to her father, the late Senator Benton:

Col. Benton never kept an amanuensis; the most he allowed to be done for him was to aid in directing speeches and public docu- ments; but his own industry and patience were so great that he could accomplish for himself all other work. Mr. Corbin, if he is a rather elderly person named Abel Rathbone Corbin, was often at Col. Benton's house, not as an amanuensis, but, as Mr. Benton himself said to some one who objected to his Uriah Heep style of manner, "every public man must have a ferret, and Corbin is mine."

Bible in the Schools Question.

The Chicago *Tribune* calls attention to one possible, and not at all improbable, result of the decision of the superior court of Cincin- nati on the "Bible in the schools" question, which has been generally overlooked; and that is, that the ground taken by the major- ity of the court must suggest to Catholics not only the expediency, but the propriety, of using the schools to inculcate their views of truth wherever they happen to be in the ma- jority. All that Judge Storer, for instance, claims for Bible reading as an agency in in- fluencing conduct and character, Catholics claim for religious instruction imparted by a priest; and for attendance at the sacrifice of the mass they claim far more. Now, if it be right for a Protestant majority to sow the seeds of religious truth as they understand it in the minds of the children of the State, whether parents like it or not, why should not a Catholic majority—say in Baltimore, or New Orleans, or New York, where there is one—in like manner do their duty, as they understand it, by having the schools opened by religious exercises of their own; nay, even have the schools taught by priests or nuns? There is only one answer to this question, and it is an answer which, in a country where there is no State church, is simply ridiculous, and that is, "My truth is the true truth, while your truth is no truth at all." The New York *Nation*, in referring to this view of the case, expresses itself satisfied with the Cincinnati decision, because the more the matter is dis- cussed, the more clearly will Protestants per- ceive the dangers of the path on which they are entering in, to keep up this discussion at all. Catholics, the *Nation* holds, could hard- ly do better, in defense of their attempts to get separate endowments for their schools here and elsewhere, than print and circulate Judge Storer's opinion.

THE DOMINIE AND HIS SCHOLARS.—In the reign of James I., of tobacco baiting notoriety, the boys of a school acquired the habit of smoking, and indulged in it night and day, using the most ingenious methods to conceal the vice from their master, till one luckless evening, when the imps were all huddled together round the fire of their dormitory, involving each other in vapor of their own creating, lo! in burst their master, and stood in awful dignity before them.

"How now?" quoth the dominie to the first lad; "how dare you be smoking?"

"Sir," said the boy, "I am subject to head- ache and a pipe takes off the pain."

"And you? and you? and you?" inquired the pedagogue, questioning every boy in his turn.

One had a raging toothache; another, colic, the third, a cough; in short, they all had something.

"Now, sirrah!" bellowed the master to the last boy, "what disorder do you smoke for?"

Alas! all the excuses were exhausted; but the interrogated urchin, putting down his pipe after a farewell whiff, and looking up in his master's face, said, in a whining, hypocritical tone:

"Sir, I smoke for corns!"

The Amazon river rises in the little Peruvian lake of Lauricocha, just below the limits of per- petual snow. For 500 miles it flows swiftly through a deep valley. Then, turning sharply eastward, it runs 2,500 miles across the great equatorial plain. Two thousand miles above its mouth its width is a mile and a half, increasing to more than ten miles at the head of the delta, where it divides, and after running 400 miles pre sents a front of 150 miles upon the ocean.

The gold premium during the past week has ruled re- markably steady at about 12½ per cent above par for paper currency. The downward tendency of gold was checked at 10⅝ per cent premium. This was at the close of the Board on March 9th, at noon. When this point was reached, an effort was made to run up the price again, but thus far without success, the highest figure attained being 13¼. The return of large amounts of silver from Canada and the resumption of specie payments by the Merchants' Exchange Bank of St. Louis, the Franklin Bank of Baltimore and by retailers in New York, Ro- chester, Cincinnati and other cities, foreshadows an early general return of coin as the basis of the currency in the Atlantic States after an absence of years.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonor- rhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and fe- male, are there who are suffering out a miserable exist- ence from the effects of secret indulgence, or from virus absorbed into the system! Look at their pallid, emacia- ted and disfigured faces and their broken-down constitu- tions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thou- sands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mer- cury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pre- tended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific med ical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in ap- proaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and sci- entific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfacto- rily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symp- toms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered let- ter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Fran cisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoe- makers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Direc tory for 1862 and 1863. The only way to avoid imposi tion is to make enquiry—it will cost you nothing, and may save you many regrets, for, as advertising physi cians, in eight cases out of ten, are bogus there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.
